After School Programmes

space & Planets club

Ages 3 to 5 years old

Ages 3 to 5 years old

Wednesdays 3:00pm to 4:00pm

Blast off into a world of stars, planets, and astronauts! Your child will explore space through hands-on activities, crafts, songs, and fun movement games. Each week introduces new space concepts in a playful, age-appropriate way.

Week 1: Rockers and Blast Off!

Become rocket builders and astronauts! We make rockets, count down, and blast off into space. Explore shiny 'space rocks' and float among the stars!

Star Words: rocket, blast off, space, stars, astronaut

Star Sentences: "I can make a rocket." "The rocket goes up!" "I am an astronaut."

Week 2: The Sun & Earth

Discover the Sun's light and warmth and learn how Earth spins around it. Make bright suns and our own Earth crafts, and sing and dance about our planet!

Star Words: sun, earth, light, warm, sky

Star Sentences: "The sun is bright." "The Earth moves around the sun."

Week 3: The Moon – Nighttime Friend

Explore the Moon's phases and hop like astronauts on its surface! Create glittery moon sand and learn about its craters.

Star Words: moon, night, dark, craters

Star Sentences: "The moon is round." "I see the moon at night."

Week 4: Planets in the Solar System

Visit the planets and discover their colours, sizes, and how they orbit the Sun. Colour, sort, and sing fun planet songs with actions!

Star Words: planet, orbit, big, small, solar system

Star Sentences: "This is a planet." "Some planets are big. Some are small."

Week 5: Stars and Constellations

Connect the dots in the night sky and make your own starry art! Explore patterns and make telescopes to look at the stars.

Star Words: star, constellation, night, sky

Star Sentences: "I see stars in the night sky." "A constellation is a star picture."

Week 6: Space Explorers – Astronauts and Space Travel

Become real astronauts! Dress up, complete a space training obstacle course, make rocket mobiles, and celebrate with a class rocket launch!

Star Words: astronaut, explore, rocket, space

Star Sentences: "I am an astronaut." "The rocket goes to the stars."
